

AFPW gets a huge Lift-Off stock jumps 200% company announces Lift Gas breakthrough

PHILADELPHIA, PA--(Marketwire -10/07/11)- Early production stage hydrogen generation company **AlumiFuel Power, Inc.** ("API"), the Philadelphia, Pennsylvania-based wholly owned operating subsidiary of **AlumiFuel Power Corporation** (OTC:BB) : [AFPW.OB](http://www.alumifuelpowerinc.com) - [News](#)) (the "Company"), revealed today why the PBIS-2000 system can become a global standard following the award of the U.S. Air Force Special Operations Command (AFSOC) contract announced yesterday. Military and meteorological users from the US, NATO, and around the world have been following API's Portable Balloon Inflation System product development with keen interest, and have indicated that the technology embedded in the PBIS-2000 could offer a superior solution to lift gas requirements in remote and inaccessible locations.
