

Hot Stocks to Watch, Tuesday 09-13-2011

SMSI - Smith Micro Software markets software products for the mobile computing and communications industries worldwide. The company operates in two segments, Wireless Productivity and Graphics segments.

The Wireless segment develops mobile connectivity, mobile information management, and mobile security solutions, including QuickLink Mobile. **Very Attractive, Great Short term trade, Huge Long term Potential.**

SATC - Satcon Technology Corporation provides utility-grade power conversion solutions and system design services for the renewable energy sector, for large-scale commercial and utility-scale solar photovoltaic (PV) markets.

Satcon designs, produces, and delivers a range of power conversion solutions that enable large-scale producers of renewable energy to convert clean or renewable energy sources into grid-connected electrical power. The company also offers system design services for management, monitoring, and performance over the entire lifespan of an installation. **Very Attractive, Great Long term Potential.**
