

ENER - Energy Conversion Devices manufactures and installs photovoltaic (PV) products. The company operates in two segments, United Solar Ovonic and Ovonic Materials.

The United Solar Ovonic segment designs, manufactures, and sells PV laminates that generate clean and renewable energy for commercial and industrial rooftop applications.

The Ovonic Materials develops materials and products based on its pioneering materials science technology. It commercializes consumer and nickel metal hydride (NiMH) battery technologies. Very Attractive, keep an eye!
