EDGR- EDGAR Online, creates and distributes financial data and public filings for equities, mutual funds, and other publicly traded assets.

The company's data products help clients in the analysis of the financial, business, and ownership conditions of an investment. Its data products include access to SEC filings in multiple formats, standardized and as-reported fundamental financial data, annual and quarterly financial statements, insider trades, institutional holdings, initial and secondary public offerings, Form 8-K disclosures, electronic prospectuses, and other investment instrument disclosure information.

Very Attractive, Bouncing back from 52WK LOWS.

USU - USEC supplies low enriched uranium (LEU) to commercial nuclear power plants in the United States and internationally

It also performs contract work for the U.S. Department of Energy (DOE) as well as maintenance services for cold shutdown. In addition, the company provides nuclear energy solutions and services, including the design, fabrication, and implementation of spent nuclear fuel technologies, transportation and storage systems for spent nuclear fuel and energy consulting services.
