

THE COMEBACK KID, CANADIAN SOLAR, CSIQ

Canadian Solar, is a Chinese solar manufacturer based in Canada. is one of the largest solar companies, a vertically integrated provider of ingots, wafers, solar cells, solar modules. The company has huge manufacturing capacity scattered across China and exports its products globally.

[Canadian Solar](#) provides one of the widest PV product lines, from 0.03W to 305W, it also offers customized PV products and OEM service around the world.

Once an investors darling now trading near 52WK Lows. Investors are warming up to

[CSIQ](#)

for good reasons, it is one of the Low cost Solar Panels producers in the World and could benefit from the consolidation in the industry.

We think the stock at this level (\$2.40-\$2.45) is very attractive and could be a winner for short to medium term, keep an eye!
