

Shengkai [Innovations](#) – [VALV](#) - is engaged in the design, manufacture and sale of ceramic valves, high-tech ceramic materials and the provision of technical consultation and related services. The Company's industrial valve products are used by companies in the electric power, petrochemical and chemical, metallurgy and other industries as high-performance, more durable alternatives to traditional metal valves.

The Company is one of the few ceramic valve manufacturers in the world with research and development, engineering, and production capacity for structural ceramics and is able to produce large-sized ceramic valves with calibers of 6" (150mm) or more.

Shengkai Innovations product portfolio includes a broad range of valves that are sold throughout the PRC, to Europe, North America, United Arab Emirates, and other countries in the Asia-Pacific region. The Company has over 400 customers. The Company is a member of the Petro-China supply network and the only ceramic valve supplier qualified to supply SINOPEC
