SCON, our pick from two weeks ago, Skyrocketed today!

We think the 'sequester' will NOT happen, however, if it does, it would have far reaching consequences, Pentagon will be forced to layoff thousands of civilian employees, NIH, the crown jewel of American Health Research will be forced close its labs.

Gold could benefit from the political gridlock, at \$1575 gold could be a good trade, potential upside, \$15 to \$35 dollars.
